

# Academic Commons

open access scholarship

Your global audience is here.

**Works in Academic Commons are:**

- \*freely accessible online
- \*easily discoverable via search engines
- \*regularly backed up
- \*assigned permanent URLs

## **A home for your scholarship**

Academic Commons is an open access scholarly repository. Use it to share your research articles, manuscripts, open textbooks and more. We encourage you to deposit a variety of file formats along with your texts (including data, images, audio, and video).

## **Enhanced discoverability and impact for your work**

When you deposit your work in Academic Commons, it becomes visible to colleagues around the world through Google Scholar and other indexing services.

Higher visibility = Higher rates of citation and impact

## **Expanded access for your colleagues**

Academic Commons is an open access repository which means there are no costs or other barriers to accessing the content shared in Academic Commons.

Academic Commons is an initiative

of the **University Libraries Center for Scholarly Communication**.

Visit our website to learn more about our work to increase the impact and utility of research and scholarship produced at Stony Brook University.
